

# Summer 2023 Comprehensive Exam Questions

- Answer one question below. In grading the exam, the faculty look for an understanding of core concepts, adequate knowledge of facts, and the application of principles and problem-solving skills in the library and information science field and the profession.
- Your paper should draw on what you have learned from your courses and the literature of the field.
- Keep in mind that you should refer to the evaluation rubric:  
<http://lis.cua.edu/res/docs/grading-rubric.pdf>.

## Question 1

Presenting information in the online environment requires an understanding of both how people seek information online and how information can be organized and made available for information seekers. Describe two strategies information seekers commonly use when seeking information online. Explain two ways of organizing and presenting information that support the information seeking strategies. Discuss what are important considerations in implementing those ways.

## Question 2

Drawing on professional and scholarly sources, discuss the evaluation of any one of the following areas: organization of information; information resource collections; information services; and information systems and technology. Explain two applicable evaluation methods, and discuss how the results of evaluation are used to improve the effectiveness of library/information/knowledge services and operations.
